

NE OR Management Unit Priorities

- Supporting NMFS' release of the Snake River recovery plans for public comment
- Evaluating Snake River recovery plans for consistency with Oregon's Native Fish Conservation Policy
- Addressing key information needs
 - VSP data gaps (e.g., Wallowa River, Imnaha River, & Lower Grande Ronde River steelhead populations)
 - Tributary habitat assessments (e.g., Upper Grande Ronde)
 - Hatchery related effects
- Managing primary “H” threats to achieve delisting & broad sense recovery
